<b>Treatment:</b>	Bifenthrin glue line treatment to H2 level against borers and termites
<b>Formaldehyde:</b>	Emission "E1"
<b>Applications:</b>	DIY, linings, manufacturing, shelving, etc.

### **PRODUCT DESCRIPTION**

This smooth sanded blonde coloured plywood is made up of a Basswood veneer face & back with a Eucalypt hardwood core. This has a consistent finish and is suited for both interior and semi-exposed applications where strength and a smooth surface is required.

#### **Finishing**

In semi exposed exterior applications, the product must be adequately protected by the use of a suitable water based exterior paint or stain on both sides of the sheet & edges, irrespective of whether the sides are exposed to the weather or not. It is recommended to contact a reputable paint supplier and follow the manufacturer's instructions. Do not use oil-based products on this plywood as oil-based paints or stains may penetrate the surface veneer of the plywood and react with adhesives that bond the core veneers together. No warranty or guarantee is offered by Luxon Pty Ltd (Luxon) if oil-based paint or stain has been applied to the plywood. This plywood is not suitable for use in the manufacture of doors and no warranty/ guarantee is offered by Luxon if this plywood is utilised in any application associated with the manufacture of doors.
